

THE GREEN BOOK COLLECTION

This popular Green Book series produced by Aged Care Music Resources includes recorded music, lyrics and sheet music for 200 much loved songs from the 1950s, 60s and 70s.

The Baby Boomer generation, for whom the music of these decades was a key part of their formative years, are currently entering retirement villages, aged care accommodation and community groups such as U3A or Senior Citizens Centres, in greater numbers. Within these environments it is evident that they are seeking the joy and social connection that being part of a group of people singing together can offer. Such community singing is easily facilitated through the Green Large Print Song Book Music Edition, and further enhanced when used in conjunction with the Green Book CD Collection and the Green Large Print Song Book.

LOWER KEY SUPPLEMENT

Published June 2021

As we age, it becomes increasingly difficult to hit those high notes. For this reason, where we feel the key the song was originally written in may be a little too high for seniors who want to enjoy choral and group singing, we have transposed those songs to a lower key.

Once again, with the focus on ease of use, this provides a ready aid to the accompanist in the form of a supplementary sheet music book, saving them the task of transposing the music themselves.

This extra supplement consists of 44 of the total 200 songs in the Green Large Print Song Book and includes the bass clef along with the melody line and chords.
